

beautiful fires for
beautiful homes

wonderfire

fire your imagination

Welcome to the Wonderfire brochure

Inside, you'll find fires capable of totally transforming the look and feel of your home.

A whole range of beautiful designs to choose from in contemporary and traditional styles, a wide selection of colours; from traditional brass through to contemporary platinum or bronze, a choice of fuel beds with coals, pebbles or driftwood and skimmers. There's even a choice of technology. Gasflame and Orbflame produce enchanting glow and flame effects while our patented Airflame technology provides the ultimate in realism. Widely acknowledged as the best on the market, the unique Airflame burner emulates a real fire in every way. With an ambient deep glow, authentic dancing flame patterns and the ability to control the flame height and colour, it simply has no equal. To help ensure you choose the ideal Wonderfire for you, we have included an easy reference guide to the different technologies and terms at the back of this brochure.

But no matter which Wonderfire you choose, you have the chance to select a fire which will create the perfect ambience and focal point for your room – no matter what your taste or requirements.

'Hole in the wall' mounted
Serenity in platinum

serenity

Look into a fire that will make you feel calm and relaxed after a long stressful day - look into Serenity. The ultimate style statement, its striking platinum finish, up-to-the-minute landscape appearance and tranquil white pebble bed give that memorable designer feel to any room. Suitable for hearth or hole in the wall mounting, Serenity also boasts Orbflame technology creating a warm welcoming ambience.

The Serenity Fire

- Orbflame technology
- Stylish landscape appearance
- Tranquil new white pebble bed
- Available in platinum
- Suitable for hearth or hole in the wall mounting
- Suitable for homes with deeper chimneys or flues

- Spacer kit available for shallower pre-cast flues*
- Heat output 2.6kW

* Deep fires can be used with a spacer kit (to be purchased separately) in homes with shallower pre-cast flues. This however, will require the use of a deep rebated fire surround or false chimneybreast. Please talk to your installer for further information.

Fascination in bronze.

fascination

Purely and simply stunning. That's Fascination. Suitable for hearth or hole in the wall mounting, the gleaming surround and striking glass front of this scene-stealing fire provide the perfect backdrop for the ultra-stylish driftwood and skimmers fuel bed. One look at it and you'll see how the Fascination earned its name. Just watch the flames dancing in, out and around these exquisite hand-formed materials, creating myriad shapes and, ultimately, a truly stunning centrepiece for your room. It could keep you fascinated for hours.

Driftwood and skimmers fuel bed.

The Fascination Fire

- Orblame technology
- Stylish glass front
- Contemporary driftwood and skimmers bed
- Available in platinum and bronze
- Concealed front controls
- Suitable for hearth or hole in the wall mounting

- Suitable for homes with deeper chimneys or flues
- Spacer kit available for shallower pre-cast flues*
- Heat output 2.4kW

* Deep fires can be used with a spacer kit (to be purchased separately) in homes with shallower pre-cast flues. This however, will require the use of a deep rebated fire surround or false chimneybreast. Please talk to your installer for further information.

Aspire Airflame with pebbles in satin chrome with Antiquity Elle surround

aspire

Raise your expectations of just how stylish a gas fire can be with the Wonderfire Aspire. With state-of-the-art patented Airflame technology, the clean, understated, modern lines of the Aspire are available in both contemporary chrome or eye-catching polished brass finishes.

Pebble and coal fuel beds offer even more choice when creating your very own Aspire, while added design cues such as a picture frame-style 'double trim' make this a fire for those with an eye for design. Not that it's just a pretty fascia. Activeheat™ from that Airflame 'engine' ensures rapid and even heating of the room.

In fact, the Aspire is seriously hot property.

The Aspire Fire

- Airflame technology for ultimate realism
- Choice of pebble or coal bed
- Choice of manual or remote control
- Choice of satin chrome or polished brass finish
- Double trim design
- Activeheat™ for rapid and even heat distribution
- Suitable for homes with deeper chimneys or flues
- Heat output 3.8kW

Bauhaus Airflame with coals in polished brass with Antiquity Paloma surround.

bauhaus

The Wonderfire Bauhaus would command pride of place in anyone's living room. A real centrepiece, this is a fire that makes a confident statement. Available with contemporary pebbles or traditional coals, the Bauhaus also comes in a chrome or polished brass finish. The choice is yours.

Those of you who want to take the luxurious ambience of a real flame gas fire to the ultimate extreme, may take advantage of Wonderfire's remote control option. But whichever Bauhaus you ultimately choose, each comes with exactly the same great combination of stylish good looks, state-of-the-art technology and ultra-efficient heating.

The Bauhaus Fire

- Airflame technology for ultimate realism
- Choice of pebble or coal bed
- Choice of manual or remote control
- Choice of chrome or polished brass
- Choice of full or half trim
- Activeheat™ for rapid and even heat distribution
- Suitable for homes with deeper chimneys or flues
- Heat output 3.8kW

Opulent with deep fuel bed
in antique silver.

opulent

As its name suggests, the Opulent adds a touch of luxury to any room. With a choice of gold plated or antique silver finish, the Regency-inspired cast iron trim and fret of the Opulent evoke a timeless appeal. And a simple fireside top control means you can turn on Opulent style effortlessly. The Opulent is also available with a deep or slimline coalbed, so it's the ideal choice for a classically decorated room, even those with smaller flues.

Opulent Slimline in gold with
Antiquity Amelia surround.

The Opulent Fire

- Gasflame technology
- Heavy cast iron trim and fret
- Available in gold plated and antique silver
- Fireslide top control for effortless operation
- Choice of deep or slimline coal bed
- Suitable for all chimney or flue types
- Heat output
Opulent 3.4kW
Opulent Slimline 3.1kW

Hearth-mounted Eclipse in brass
with Antiquity Elite surround.

eclipse

Available in either polished brass or satin chrome, the distinctive square surround of the Eclipse frames its contemporary pebble bed beautifully.

The bold angular lines of this fire combine with the highly reflective mirrored back to lead the eye irresistibly to the focal point – the comforting, warming, real flame effect which tempts you to keep looking into it, time and time again. Suitable for hearth or wall mounting, the Eclipse injects style and elegance into the heart of the modern home.

The Eclipse Fire

- Orbiflame technology
- Stylish pebble bed
- Available in polished brass or satin chrome
- Concealed front controls
- Suitable for hearth or hole in the wall mounting
- Suitable for homes with deeper chimneys or flues
- Spacer kit available for shallower pre-cast flues*
- Heat output 2.6kW

*Deep fires can be used with a spacer kit (to be purchased separately) in homes with shallower pre-cast flues. This however, will require the use of a deep rebated fire surround or false chimney breast. Please talk to your installer for further information.

Hearth-mounted Eclipse in satin chrome with Eclipse Suite surround by Bartoli and Hunter in Stone Grey.

chic

The perfect centrepiece for any modern interior, the Chic is very aptly named.

Its distinctive bars, stylish pebble fuel bed, brushed alloy metal design and platinum effect finish bring a cool contemporary edge, ideal for those clean, uncluttered, minimalist looks.

Able to be hearth or wall mounted, the Chic has a fireslide top control.

So it's not only easy on the eye, it's also effortless to operate.

- Suitable for hearth or hole in the wall mounting
- Suitable for all chimney or flue types
- Heat output 3.1kW

Liberty basket with pebbles in polished chrome
fuel bed with Bartoli Hunter Cumbria surround.

liberty

Set yourself free from the constraints of traditional fire design. Enjoy a taste of Liberty. A genuine cutting edge design, Liberty can be teamed with any surround you please or placed in a beautifully framed 'hole in the wall' chamber box with matching trim to create a picture perfect centrepiece. But with Liberty your choices don't end there. You can choose the contemporary look of polished chrome or the indulgence of 18 carat gold plate. And you can select either the cool look of pebbles or the timelessness of coals. You can enjoy complete freedom of choice with Liberty.

Liberty basket with pebbles in gold with Wonderfire hole in the wall chamber box and matching trim.

The Liberty Fire

- Gasflame technology
- Available in gold plated and polished chrome
- Choice of pebble or coal bed
- Removable rear reflector
- Available with chamber box for hole in the wall mounting
- Concealed front controls
- Suitable homes with deep chimneys
- Heat output 2.7kW

Liberty basket gold with coals.

camden

Sleek, stylish, sophisticated. That's Camden. The understated design of this fire will sit very comfortably in contemporary interiors. Indeed, the chrome frame, coupled with the pebble bed, are the very epitome of modern style. And because deep and slimline models and an electric option are available, the Camden is suitable for any type of property.

Camden Electric 2.0kW

Memphis with optional tracery.

memphis

If you love the warm, cosy look of stoves but yearn for the convenience of gas, the Memphis is the stove for you. With its stylish chrome trim, the Memphis is perfectly at home in a contemporary setting. Alternatively, for a more traditional look, just add the optional tracery. With a realistic flame effect, a choice of two sizes and heat outputs, there's a Memphis Stove to suit your home and your needs exactly.

Memphis.

The Memphis Stove

- Solid steel construction and cast iron door
- Optional tracery for more traditional look
- Available in two sizes and two heat outputs
- Easily controllable heat setting
- Top or rear flue connection for easy installation
- Suitable for homes with deep chimneys
- Heat output
Memphis 5 - 3.0kW
Memphis 7 - 4.0kW

Due to the sheer number of varying flue boxes it is not possible to advise on which fires are suitable until the existing fire has been removed. Slimline versions of the Wonderfire Opulent, Eternal and Camden are available to fit all flue types.

- Similar versions of these models are available for homes without chimneys.
- ✦ Applicable to certain pre-cast flues only when used with the optional extra spacer kit. A rebated surround or false wall will be required.
- * When using a spacer kit.

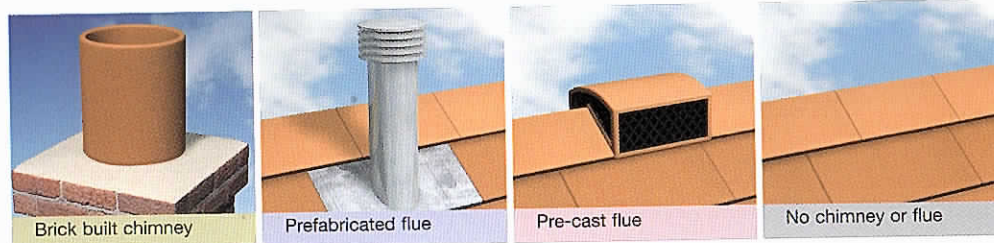

Which Wonderfire is right for you?

We want you to enjoy your new Wonderfire right from the very start.

That's why we've made it so easy for you to select the fire that's perfect for you and your home.

So all you have to do is take a look at the pictures below and decide which one best matches the chimney at your home then, when you're leafing through our brochure and find a fire you like, simply check it's suitable for the chimney at your property.

Brick-built chimney (deep chimney)

Suitable for all fires, the classic brick-built chimney can handle fires with a deep bed right through to shallower slimline styles.

Pre-fabricated flue (deep flue)

Suitable for most fires, pre-fabricated flues are deep enough to take most of the deep models and all of the slimline styles.

Pre-cast flue (slimline flue)

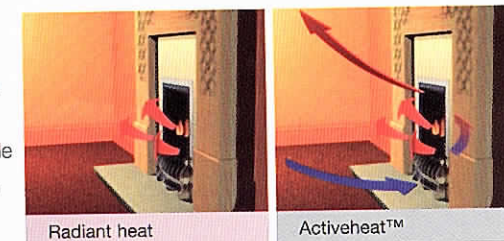

Usually found in modern homes, pre-cast flues are suitable for a wide range of slimline fires. However, a number of deeper fires can be adapted for pre-cast flues with the use of a spacer kit (of which there is more information below).

No chimney or flue

Our range of powerflue and electric fires may be the ideal solution for you.

Spacer kits

Some fires can be adapted to fit certain pre-cast flues. So if you like the look of a deeper fire but only have a shallow chimney or flue, a spacer kit could provide the ideal solution. For further information, please talk to your installer.

Activeheat™ and radiant heat

All fires give out radiant heat. Radiant heat feels like being warmed by the sun. The heat moves outwards from the fire, so the closer you get to the fire the warmer you feel. Whilst this is suitable for most homes, creating additional warmth throughout the room can take some time. This is where Activeheat™ helps.

Fires with Activeheat™ not only give out radiant heat but actively draw in the cold air from the room, pass it through a heat exchanger to warm it up and circulate it back around the room by means of natural convection.

Airflame technology

Quite simply the most realistic gas fire available today, Airflame is widely acknowledged as the best on the market. With its deep ambient glow and beautiful authentic dancing flame patterns, Airflame emulates a real fire in every way. The patented technology gives 1200 degrees celsius at the heart of the fire and allows users to control the flame height and colour.

Airflame also offers you a huge amount of choice. You can opt for either a coal or pebble bed, active or radiant heat, manual or remote control.

Orbflame technology

With a curved mirrored back and a circular fuel bed, Orbflame technology creates stunning visual effects. By magnifying the flames and underbed glow, Orbflame creates a warm welcoming ambience which is truly entrancing – you could look at it for hours.

Gasflame technology

Gasflame technology creates an enchanting glow and inviting flame effect for that warm homely feeling. Fires will have a manual or a fireside control, a coal or pebble fuel bed and either active or radiant heat.

The service division

heateam
the heat experts

Heateam is a Baxi Heating UK operation dedicated to providing state-of-the-art customer service. Its role is to support our products long after they leave our factory. Our lines are open 363 days of the year and our team of CORGI registered gas engineers are on hand 6 days a week, to provide support. In the unlikely event that there are any mechanical problems with your fire while it is still in warranty they will come out to rectify the problem free of charge*. Heateam also offer the facility to register your guarantee and extend the warranty on any of our gas products for your added peace of mind. Telephone 08706 090081 or visit www.heateam.co.uk.

GENERAL NOTES

Wonderfire gas fires are C.E. approved and manufactured under a BS EN ISO 9001 quality system, which covers all areas of product design, development, manufacture and service. All gas appliances must be installed by a competent Corgi Registered Installer and in accordance with the manufacturer's installation instructions and they should not be fitted directly onto a carpet or floor of combustible material.

Though accurate at the time of printing, this brochure is not intended to replace the installation manual which provides more detailed information. Please note that certain parts of the appliances will become hot. A suitable guard is therefore recommended where the very young or infirm are concerned. The Wonderfire policy is one of continual improvement and development. The right to change specification without prior notice is reserved. The statutory rights of the consumer are not affected.

*No liability is accepted for problems caused by poor installation or misuse of the product.

We would like to express our gratitude to SofaSofa who provided the majority of the sofas in our photography. www.sofasofa.co.uk
